MANAGEMENT PROFILES OF HELIO LLC'S OFFICERS

SKY D. DAYTON: Sky Dayton is the chief executive officer of HELIO LLC and HELIO, Inc. (formerly SK-EarthLink). HELIO, Inc. is a joint venture between EarthLink and SK Telecom, one of the most advanced mobile operators in the world.

Sky founded EarthLink in 1994 at the age of 23 and helped usher the Internet revolution. As a friendly, tech-savvy ISP, EarthLink today serves more than five million customers and generates more than \$1.4 billion in annual revenue.

Sky founded Boingo Wireless in 2001, the award-winning network that connects more than 20,000 global hot spots and helped turn Wi-Fi into mainstream technology.

In 1999, Sky and former Disney Internet chief Jake Winebaum started eCompanies, an Internet incubator and venture fund that launched several successful recent ventures, including JAMDAT Mobile (NASDAQ: JMDT), LowerMyBills and Business.com.

Prior to EarthLink, Sky cofounded a computer-graphics boutique catering to the entertainment industry, and a popular coffeehouse in West Hollywood, California. He graduated from the Delphian School in Oregon in 1988 and chose to forgo college to pursue his interests in business and technology.

Sky has received numerous awards and honors. He was named one of Business Week's top seven entrepreneurs, and was chosen as the University of Southern California's Entrepreneur of the Year. He has been featured in Fortune, Forbes, Wired, Wall Street Journal, CNBC, CNN and in hundreds of other media.

Sky currently serves on the boards of SK-EarthLink, EarthLink, Business.com and on the advisory board of the Center for Public Leadership at the John F. Kennedy School of Government at Harvard University.

TODD TAPPIN: Todd Tappin is the chief financial officer at HELIO LLC and HELIO, Inc. and is responsible for all financial, legal and administrative aspects of running the companies.

As the founding CFO of Overture Services, Inc., the pioneer in paid Internet search, Todd understands the challenges and responsibilities of building a company from the ground up.

Todd began his tenure at Overture in 1998, in its infancy with 15 employees and no revenue. He helped raise more than \$35 million in private equity before taking the company public in 1999.

Todd also led several key business-development agreements, managed acquisitions that totaled more than \$500 million and was instrumental in driving the company's global expansion. Todd co-led the sale of the company to Yahoo! in 2003 for \$1.8 billion, when the company was poised to generate more than \$1.5 billion in revenue, had more than 1,400 employees and was successfully operating in nine countries.

Prior to Overture, Todd served as senior vice president of finance for Twentieth Century Fox where he oversaw all finance, strategic planning and business development for the Home Entertainment and Interactive divisions. Additionally, he was the general manager of Twentieth Century Fox Home Entertainment, Canada.

Todd began his professional career as a CPA with Deloitte, Haskins and Sells. He holds a B.S. degree in business from the University of Colorado.

WONHEE SULL: Dr. Wonhee Sull is chief operating officer of HELIO LLC and HELIO, Inc. In addition, he serves as a member of HELIO, Inc.'s board of directors. In this role, Wonhee directs several teams to deliver an array of innovative products and services, technical infrastructure, customer services and consistent user experience. He is also responsible for creating the company's strategic roadmap and developing new business opportunities.

Prior to joining SK-EarthLink, Wonhee served as vice president of the Platform R&D Center at SK Telecom. With full responsibility for R&D, Wonhee led the development of a consistent consumer experience across SK Telecom's devices with the creation of a standardized application environment and platform. This innovative service-delivery platform spurred the growth of numerous commercial services ranging from multimedia to m-commerce and was instrumental in the growth of SK Telecom's wireless data business. In addition, Wonhee led several special task forces, including Terminal TF for long-term terminal strategies and Communication Intelligence TF for the fully-fledged personalized services in a ubiquitous environment.

Wonhee received a B.S. degree from Seoul National University, an M.S. degree from University of Michigan in computer science and a PhD degree from Purdue University in computer engineering. Prior to joining SK Telecom, Wonhee was a research professor at the University of Miami, a senior engineer with GE Medical Systems and a senior member of technical staff with MCC.
